

Deenie Espinoza

Aurora University Online
Success Coach

My name is Deenie Espinoza, and I will be one of your online academic advisors and success coaches throughout your educational career at Aurora University Online. As our learning community continues to transition into a stronger and more effective online learning experience, the online advising role has adjusted to meet new demands and ensure a winning experience for the online student.

As your success coach, I will monitor your course progress to identify your learning style and suggest recommendations to help you complete your work at the highest quality and experience exceptional outcomes. I will contact you each week during your first two terms. I have a very flexible schedule, and I'm ready to complete check-ins using various methods of communication that meet your scheduling needs. Contact frequency will adjust after the second term when you have established satisfactory course participation that meets the demands of your online AU program. We believe that regular check-ins build a sense of trust and accountability, and I feel strongly that this will help you accomplish your academic endeavors.

I encourage you to contact me for educational guidance, such as course registration, academic support, goal setting, school resources and policy as well as transferrable skill-building opportunities such as time management. My hope is to provide a healthy balance of resources and encouragement, and I'm ready to follow your lead as our relationship grows.
