Submitting an Assignment

Submitting an Assignment

How you submit an assignment depends on the type of assignment. Most of the time, you will either upload the assignment or fill in a text box.

Uploading an Assignment Submission

Moodle has two methods of uploading files assignments. One method allows you to upload multiple files at once, and the other method allows you to upload only one file at a time.

Search the internet to find two works of art from the Renaissance through the 17th century, one by an Italian artist and one by a Dutch artist. Compare and contrast these two works and discuss significant influences on their painting styles. Provide links to these works.
2. Click Upload files .	 <p>The screenshot shows a single button labeled "Upload files" with a document icon.</p>

4. Add your file either from your computer using Upload a file or from My Private Files . The steps for both options are below.	
The name of your file will appear below Add on the Assignment submission page.	<p>Path: Files</p> 

 **Note**

On the same line as the **Add** button, you will see **Maximum size for new files** and then a number that gives the maximum size *per file*. For example, if the maximum size is 20 MB and your assignment calls for three files, then the maximum size of *each* file is 20 MB, for a total of 60 MB.

If your file is larger than the maximum, talk to your instructor about alternatives or try to break the file into smaller documents if you are allowed to upload multiple file.
