

Welcome to Engage!

New Features for Students

The upgrade of your LMS to Engage from Moodle includes exciting new benefits and features for students. Engage builds on the core Moodle framework while introducing improvements that enhance learning experience, navigation, and usability.

You can find details about the most recent changes below, as well as resources for navigating the new platform.

What's Different?

This exciting upgrade will enhance your learning experience through improved navigation and other new features. Engage introduces the following changes:

- ✓ **Mail:** Communicate directly with your instructors using Engage Mail, a new and improved messaging system.
- ✓ **Course Overview block:** List view of your enrolled courses, giving you a quick way to access the courses that are relevant to you.
- ✓ Forum inline editing to easily start a new discussion or reply to forums
- ✓ Clearer icons and more accessible fonts
- ✓ Modernized dashboard look and feel

How Can I Learn More About These Changes?

A helpful introduction can be found in [Navigating Engage](#).

User tours have been created within Engage itself. These tours appear when you log in and access either the Dashboard or a course page. These optional tours can assist new users who are unfamiliar with Engage. If you ever need to access a user tour, look for the "reset user tour" link at the bottom of the page.
